

Certificate in relation to air transportation by passengers with walking disabilities

We hereby certify that our product

WheelDrive

Including the nickel-metal-hydridebatteries (Special Provision A199) fulfil the requirements of

IATA chapter 2.3.2.2

and therefore may be carried as checked baggage without restriction. Condition precedent to meet the above listed requirement is the transportation in a way that the batteries are removed for transportation (protected from damage and from short circuit) and must be carried in a strong, rigid packaging in the cargo compartment. The pilot-in-command must be informed of the location of the batteries.

We strongly recommend obtaining the approval by corresponding airline company before commencement date respectively departure date.

This certificate does not apply to damaged or defective batteries.

Due to the frequent amendments of the respective regulations, which partly occur on an annual basis this certificate is valid until 31st December 2026.

Enschede, 4th of December 2025

Indes Healthcare B.V.

A handwritten signature in blue ink, appearing to read "H.T.J. Janssen", is written over a series of horizontal wavy lines.
